CERAMIC PARTICLE TECHNOLOGY
Filter out the sun's infrared radiation -more effective than metallized or dyed films.

UV RAY PROTECTION
Blocks over 99% of harmful UV rays to prevent skin cancers, premature aging and skin cell damage.

CRYSTAL CLEAR SIGNAL
Does not interfere with radio, cellular and Bluetooth signals like metallized films.

SUPERIOR HEAT REJECTION
Blocking sun's heat to keep your interior cool while improving fuel efficiency.

HIGH DEFINITION CLARITY
Providing the highest performance without sacrificing clarity and color.
